About Me:

I am a dedicated full-time freelancer with extensive experience in data analysis, automation, and Excel-based solutions. My expertise includes:

📈 **Advanced Excel Projects:**

- Automatic Form Generation using VBA in MS Excel
- Data cleaning and organization (e.g., 700 case files)
- Media Schedule Dashboard with dynamic data
- Daily Production Report and Weekly Summary Dashboard
- VBA automation for daily tasks
- One-Click Invoice Generation System
- Power BI Reports & CSVs Generation
- Amazon Fee Calculator in Google Sheets
- Windows Catalog Dashboard with Multiple Options in Excel
- Auctions Analyzer Dashboard in Excel

📈 **Financial Projects:**

- Monthly/Paycheck Budget Tools
- Snowball Debt Tracker (up to 5 accounts with auto-arrangement)

📈 **E-Commerce Projects:**

- Sales Tracker
- Woocommerce Inventory Bulk Files Generator
- Automation of Amazon Product Evaluation Process
- Automation of data downloading with UI-Path
- Multi-Keyword Instant Web Scraping with Power BI
- Amazon Competitors Analysis in Power BI
- Automation of Master Keyword Sheet
- Amazon Listing Generator with 1000s of Keywords
- Amazon Master Keywords Sheet Generator
- Amazon Bulk Files Generator

📈 **Python Projects:**

- Automation of data downloading with UI-Path
- Multi-Keyword Instant Web Scraping with Power BI
- Outlook Automation for email sending when specific files are received in Inbox

📈 **Statistics Projects:**

- Math Solver for Linear Programming and Statistics in Excel

I take pride in delivering the highest quality work and ensure that a project is not considered complete until the client is 100% satisfied. Please feel free to contact me with any queries or project requirements.
